

## **PLAYER PATHWAY**

The purpose of this pathway is to give a clear and open understanding of the opportunities available for all players. When we match this with the direction of the Coaching and Umpire Pathways each participant shall be receiving a suitable level of coaching and competition to help their development and fulfil an individual's potential.

### **Goals**

- To provide the correct opportunities in terms of an individual's development  
(With club/school links, PDC's and Academies)
- To give a clear and transparent Talent Identification process
- Enhance player development with a structured and communicated pathway centred around the player
